GARDENER'S CHOICE™

BLOOM BUILDER AZALEA-CAMELLIA ACID PLANT FOOD 0-10-10

Gardener's Choice™ Bloom Builder Azalea-Camellia Acid Plant Food 0-10-10 combines the correct amount of phosphorous and potash to help promote plant hardiness, root growth, and flower production. Use on Azaleas, Camellias, Fuchsia, Begonias, Gardenias, Hydrangeas, Rhododendrons, and other acid loving plants.

CAUTION: Keep out of reach of children. May be harmful if swallowed. Avoid contact with eyes, open cuts or sores.

HOW TO USE

Always dilute this product with water before applying. Apply using a sprinkling can, clean pail or hose-end sprayer.

For Azaleas, Camellias, Fuchsias, Begonias, Gardenias, Hydrangeas, and Rhododendrons: Mix one tablespoon (1/2 oz.) to one gallon of water for each plant. Saturate the ground thoroughly around each plant.

Potted Plants and Hanging Baskets: Mix one tablespoon (1/2 oz.) to one gallon of water. Water plants thoroughly with solution every 4 weeks.

For best results, apply **Gardener's Choice™ Bloom Builder Azalea-Camellia Acid Plant Food 0-10-10** every two weeks to all acid loving plants. Four weeks before bud set and continue through the flowering period.

It is not uncommon for acid loving plants to develop iron chlorosis (yellowing foliage). We recommend using **Gardener's Choice™ Iron Booster** to help restore the essential nutrients needed to achieve the deep green color of leaves.

GUARANTEED ANALYSIS: **BY WT.**
Available Phosphate (P₂O₅) 10.00%
Soluble Potash (K₂O) 10.00%
Derived from phosphoric acid and potassium chloride.
