

**Gardener's  
Choice™**

Stimulates roots.

Contains transplant  
shock preventer and  
wetting agent.

Helps plants become  
established quickly.

# PLANT STARTER

ACTIVE INGREDIENT:	BY WT.
1-Naphthaleneacetic Acid .....	0.10%
OTHER INGREDIENTS .....	99.90%
TOTAL .....	100.00%

ALSO CONTAINS NON-PLANT FOOD INGREDIENTS: 0.15% B1 (Thiamine Hydrochloride) 1.00% Ethoxylated Fatty Alcohol (Biodegradable Soil Penetrant)

NET CONTENTS  
32 Fl.Oz. (946 ml)

KEEP OUT OF REACH OF CHILDREN  
**CAUTION** See Back Panel For Additional  
Precautionary Statements

**Gardener's  
Choice™**

**Plant Starter** is especially designed to hasten the development of bareroot roses, non-bearing fruit trees and shade trees and benefits bedding plants, new seedlings and all trees and shrubs that have been moved to new locations. It helps plants become established quickly and insures vigorous growth.

The soil penetrant and wetting agent added, reduces the surface tension of soil and allows the material to gain easy access to root area where it uniformly spreads over the root surface bringing them the proper stimulant for renewed growth.

#### PRECAUTIONARY STATEMENTS

##### Hazards to Humans and Domestic Animals

**CAUTION:** Harmful if swallowed. Avoid contact with skin, eyes and clothing. Wash thoroughly after handling. Remove and wash contaminated clothing before reuse.

#### FIRST AID

**If in Eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. Have the product or label with you when calling, or going for treatment.

**ENVIRONMENTAL HAZARDS:** Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters or rinsate.

#### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product is concentrated and must be diluted before making applications. Mix one tablespoonful of this product into one gallon of water. At the time of transplanting apply mixture to bare roots and soil thoroughly saturating the plant's root area. Plants will not be damaged if larger volumes of diluted solutions are used. Transplanted shrubs, trees, flowers, rooted cuttings, potted plants,

and house plants should be treated once a week until the plants are satisfactorily established. Apply mixture to soil around base of plant above root area. Subsequent monthly applications are recommended. **Gardener's Choice™ Plant Starter** is a root stimulant and should not be applied to the plant's foliage as a fertilizer or plant food.

#### STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

**Storage:** Store in original container only in a cool, dry location away from children. **Pesticide Disposal:** Call your local waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain. **Container Disposal:** Do not reuse this container. Place in trash or offer for recycling if available.

**GENERAL INFORMATION:** This material contains a beneficial hormone-like chemical that stimulates the quick formation of new root hairs and revitalizes the delicate feeder roots that are often damaged in transplanting.

For information on this pesticide product (including health concerns, medical emergencies, or pesticide incidents), call the National Pesticide Information Center at 1-800-858-7378.

Information regarding the contents and levels of metal in this product is available on the internet at <http://www.wa.gov/agr/>.

Buyer assumes all responsibility for safety and use not in accordance with label directions.
