

FIRST AID	
<b>IF ON SKIN OR CLOTHING</b>	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
<b>IF IN EYES</b>	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
<b>IF INHALED</b>	Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.	

**PRECAUTIONARY STATEMENTS**  
*Hazards to Humans and Domestic Animals*

**CAUTION:** Harmful if absorbed through skin. Avoid contact with skin, eyes or clothing. Wash thoroughly after handling. Avoid contamination of food or feed. Utensils such as teaspoons and measuring cups should not be used for food purposes after use with insecticides.

**ENVIRONMENTAL HAZARDS**

This product is extremely toxic to fish. Do not apply directly to water. Drifts and runoffs from treated areas may be hazardous to aquatic organisms in treated areas. Do not contaminate water when disposing of equipment washwaters.

**STORAGE AND DISPOSAL**

**STORAGE:** Store product in its original container in a cool, dry locked place out of reach of children.  
**DISPOSAL: If empty** – Do not reuse this container. Place in trash or offer for recycling if available. **If partly filled** – Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

**LIMITED WARRANTY AND DISCLAIMER**

Buyer assumes all responsibility for safety and use not in accordance with directions.

\*Permethrin ..... 0.25%  
Inert Ingredients ..... 99.75%  
Total ..... 100.00%  
\*Cis/trans ratio: Maximum 55% (±) cis minimum 45% (±) trans

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Food utensils such as teaspoons and measuring cups should not be used for food purposes after use with pesticides.

**READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH LABEL PRECAUTIONARY STATEMENTS AND DIRECTIONS.**

*Gardener's Choice Ant Killer Granules* is recommended for the control of lawn insects, fleas, and ticks outdoors in residential areas. Band treatments are recommended around house foundation and spot applications are made to ant mounds and wasp nests.

**BAND TREATMENT AROUND HOUSE FOUNDATION**

**PESTS:** Ants, Boxelder Bugs, Brown Dog Ticks, Centipedes, Cockroaches, Clover Mites, Crickets, Field Crickets, Fleas, Scorpions, Sowbugs, Spiders (including Black Widow), Springtails (Collembola) and Ticks.

**USE RATE:** 1 lb. per 500 sq. ft.

**HOW TO USE:** To help prevent infestation of buildings, apply a 5 foot band of granules next to the house foundation. Distribute granules uniformly. Water lightly after application.

**SPOT TREATMENT**

**ANTS NESTING OUTDOORS INCLUDING**

Acrobat, Argentine, Big Headed, Cornfield, Field, Harvester, Leafcutter, Little Black, Pavement and Pyramid Ants.

**USE RATE:** Product should be applied to thoroughly cover the nest (1 to 2 teaspoons) and sprinkled gently with water.

**HOW TO USE:** If possible, it is best to try to locate nest and treat this first. Nests will usually be found in the ground but may be concealed under stones, boards, slabs or in stumps or logs. In addition to treating ants nests or mounds, entry points of buildings (used by ants) and the soil surface along the perimeter of the building should be treated.

**DIGGER WASPS:**

**USE RATE:** Apply 1 to 2 teaspoons of granules in and around each individual ground nest opening.

**HOW TO USE:** Make application at dusk when the wasps are not active.

**IMPORTED FIRE ANTS:**

**USE RATE:** Apply one cup over, and 2 feet around each fire ant mound.

**HOW TO USE:** Immediately after application, water the granules into the soil gently with a light sprinkling to avoid disturbing the colony. Use at least 1 gallon of water per mound, but no more than 2 gallons. Use of high pressure watering equipment may disturb the colony and cause migration of the ants, thus reducing the effectiveness of the treatment. Apply in cool weather (65 to 80° F), or in early morning or late evening for best results. Treat new mounds as they appear.

For information on this pesticide product (including health concerns, medical emergencies, or pesticide incidents), call the National Pesticide Information Center at 1-800-858-7378.
