KEEP OUT OF REACH OF CHILDREN
CAUTION Read Precautions and Directions on Back Label.

NET CONTENTS 32 FL. OZ. (1 QT.)

RM#16520

Dexol WildFire! Grass & Weed Killer Concentrate will kill almost all annual and perennial weeds, grasses and other unwanted plants. Mix **Dexol WildFire! Grass & Weed Killer Concentrate** with water and use to control weeds on driveways and walkways, or around fences, trees, flower beds, shrubs, and other areas in your yard. This product can also be used for large jobs such as lawn restoration/renovation and garden plot preparation. **Dexol WildFire! Grass & Weed Killer Concentrate** kills weeds by stopping the production of a substance found in plants. Any product not absorbed by plant breaks down into natural materials. **Dexol WildFire! Grass & Weed Killer Concentrate** will not move in or on the soil to untreated plants.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. READ ENTIRE LABEL. USE ONLY ACCORDING TO LABEL INSTRUCTIONS.

WHEN TO USE:

Use anytime weeds are actively growing. Most treated weeds usually show initial symptoms within 1 week and complete kill in 1 to 2 weeks. Larger more established weeds may take up to 4 weeks for complete kill. For best results, apply on a warm sunny day when daytime temperature is above 60°F and no rainfall is forecast for 24 hours. Warm, sunny weather will speed up weed control. Apply only when air is calm. Reapply if it rains within 6 hours after application. Rainfall or watering 6 hours after application will not wash away effectiveness. Hard-to-control weeds (such as bermudagrass) may require a repeat application if they regrow. NOT recommended for spot weed control in lawns since **Dexol WildFire! Grass & Weed Killer Concentrate** kills all green plants, including lawn grass.

WHERE TO USE:

General Weed Control: Use along fences, paths, patios, sidewalks and driveways, around trees, shrubs, and ornamental plantings and flower beds, around buildings, and in brick and gravel walkways. Use to trim and edge landscape areas. Do NOT use for spot weed control in lawns since **Dexol WildFire! Grass & Weed Killer Concentrate** kills all green plants including lawn grass.

Spot Spraying: Use on actively growing weeds in and around flower beds, ornamental trees, fruit and nut trees, grapevines, shrubs, fences, driveways and walkways. Spray when air is calm. Make sure that **Dexol WildFire! Grass & Weed Killer Concentrate** does not contact leaves, green stems, or exposed roots of plants you don't want to kill. If necessary, use cardboard or plastic to shield plants. **Dexol WildFire! Grass & Weed Killer Concentrate** will not move in or on the soil to untreated plants. If **Dexol WildFire! Grass & Weed Killer Concentrate** is used to control weeds around fruit or nut trees or grapevines, allow 21 days before eating fruit or nuts.

Landscaping: Use to prepare areas for planting of ornamentals, trees, shrubs, desert landscapes, rock gardens, flower beds, or similar plantings. Treated areas can be replanted 1 day after treatment.

Lawn Renovation:

- Use **Dexol WildFire! Grass & Weed Killer Concentrate** to kill existing weeds and grasses including the [old] lawn.
- For best results, apply in Spring or Fall, when daytime temperatures are at least 60°F.
- Under dry conditions, water lawn every other day for a week before using this product.
- Do not mow for 7 days before and after treatment.
- After 7 days, prepare soil for planting by raking or rototilling the lawn. Rake up and remove loosened thatch or debris.
- Mix in the starter fertilizer and other amendments, if needed. Level the soil.
- Apply seed according to directions on seed package, or install sod. Grass seed must have good contact with the soil to germinate and grow.
- Keep area moist for 2 weeks, to establish new lawn, then water as needed.

Brush Control: Use when brush is green and growing. If plants are taller than 5 feet, cut back and spray regrowth. Brush sprayed in the fall may not be fully controlled until the following season. Hard-to-control species such as Blackberry, Kudzu, or Poison Oak may require a second application.

To Kill Vines:

- If vine is growing up a pole, fences, or mature tree trunk, cut vine to a height of 3 to 4 feet and spray to thoroughly cover remaining vine.
- If vine is climbing a shrub or immature (green) tree trunk, cut vines at base and spray its regrowth. Shield shrubs and green bark from spray drift with a sheet (piece) of cardboard or plastic.

HOW TO USE

IMPORTANT: Dexol WildFire! Grass & Weed Killer Concentrate is an all-purpose weed and grass killer which will kill almost all plants contacted. If necessary, use cardboard or plastic to shield desirable plants. If plants are accidentally sprayed, rinse off immediately with water. Spray when air is calm. Spray to evenly wet the weed.

To apply this product use:

- Plastic, aluminum, or stainless steel tank sprayer
- ORTHO DIAL N SPRAY®
- ORTHO SPRAY-ETTE®
- Other hose-end sprayer recommended for weed killers
- Hand-trigger sprayer

Do not use or store solutions of this product in galvanized steel or unlined steel sprayers, or apply through any type of irrigation system or with a sprinkling can.

Rinse sprayer and flush all spray components with water 3 times after use. Spray rinse water on bare soil or gravel. After very thorough cleaning, sprayer may be used to apply other products.

Use the following table to determine the amount of **Dexol WildFire! Grass & Weed Killer Concentrate** you need. Close the cap tightly after use. 1 fl oz = 2 Tbs.

APPLICATOR	MIXING INSTRUCTIONS	AREA TO TREAT
Tank Sprayer	Use 6 oz (12 Tbs.) in 1 gallon of water.	Spray to evenly wet. Covers 300 sq. ft. (30 ft X 10 ft)
ORTHO DIAL N SPRAY®	Add 6 oz (12 Tbs.) to sprayer jar. DO NOT ADD WATER. Set dial to 6 oz. and spray	Spray to evenly wet. Covers 300 sq. ft. (30 ft. X 10 ft)
ORTHO SPRAY-ETTE®	Add 24 oz to sprayer jar. Fill to the 4 gallon mark and spray.	Spray to evenly wet. Covers 1200 sq. ft. (30 ft X 40 ft)
Hand Trigger Sprayers	Use 2 Tbs. in 24 oz of water.	Use for spot treatments or single weeds.

For easy to kill weeds such as seedlings, use 3 oz (6 Tbs.) to 1 gallon of water.
