DEXOL SPOT WEEDER

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not allow people (other than applicator) or pets on treatment area during application. Do not enter treatment area until spray had dried or dust has settled.

Dexol Spot Weeder contains a combination of three proven weed killers. Together they control a wide range of broadleaf lawn weeds; some of which are listed on this label.

Use to spot-treat weeds in the lawn. For best results, apply when weeds are actively growing. Do not water within 24 hours after spraying. Use as is. Do not mix. Do not dilute. Aim at weed and spray. Only a short burst is needed. Overspraying may cause damage to grasses such as Centipedegrass, St. Augustinegrass, and Floratam. Effects begin to show after a few days and weeds gradually die. Up to 4 weeks may be required for a complete kill. Be patient. Repeat in 3 to 4 weeks if necessary.

CONTROLS: Chickweed, common, Dandelion, Ground Ivy, Knotweed, Lambsquarters, Mallow, Nettle, Oxalis, Plantain, Clover, red, Clover, white and many other broadleaf weeds.

USE PRECAUTIONS: Do not allow spray to drift onto vegetables, flowers, ornamental plants, shrubs, trees and other desirable plants since injury may result. Do not pour spray solution near these plants. Avoid fine mist sprays. Coarse spray droplets are less likely to drift and cause damage to non-target plants. Do not spray roots of desirable trees and shrubs. Do not exceed specified dosages; be particularly careful within dripline of trees and other ornamental species. This product is intended for spot spraying individual weeds only.

STORAGE AND DISPOSAL

STORAGE: Store in original container in a locked storage area inaccessible to children and pets. **DISPOSAL: If empty:** Do not reuse container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
